## Assembly

CAREFULLY REMOVE CONTENTS FROM THE PACKAGE

### **Base & Wheels**

Each base comes with four (4) wheels – three (3) non-locking wheels & one (1) locking wheel.

- Position the base upside down so the four wheel holes are visible near each corner.
- Push post of wheel firmly into each hole until you hear a click.
- Repeat this step for all wheels.

NOTE: It does not matter where you place the locking wheel.

## Instructions For Use

1) If wheel lock is in the unlocked position, place in locked position.

Unlocked (up)

Locked (down)

2) Place plant/item centered on the plant caddy. **Do not exceed the weight limit of 200 pounds.**

# Instructions continued

3) Insert the handle into the base.

a. Place the four curved claw fasteners into the four openings along the side of the base.

b. When inserting the handle, hold handle at a slight angle so that the four curved claw fasteners slide into the base. **(See FIGURE A).**

c. Once the curved claw fasteners are inserted into the base, **lower the handle until the handle is firmly in place.** **(See FIGURE B & FIGURE C & FIGURE D).**

d. **DO NOT** insert the curved claw fastener into the top of the base or any other product.

4) Place plant/item on the base. We recommend PULLING the base to transport items.

**DO NOT lift up on the handle when transporting items, as this will cause the handle to disconnect from the base (see figure E).**
